

Uehara San's Speech

Good evening everybody,

It's me, Uehara again.

My European friends, welcome to Japan !

I hope you all enjoyed Japan very much. Suzuka factory tour, visiting Kyoto, going to the hot spa in Atami and today the touring to Nikko.

And a big "thank you" to my Japanese friends, for joining at Motegi in such big number.

It is a great pleasure to see the strong S2000 circle growing all over the world.

I was invited to the 10th anniversary of the S2000 in Italy, Trento this April and enjoyed driving through the Italian alps with all of you.

The spirit of people who all love the same car expanded beyond the border to a firm friendship.

At that time I also felt a strong sense of unification with my European friends.

Today, people from Europe and Japan got together in Motegi and drove to Nikko to write a new chapter of friendship.

And it is my dream that this circle of friendship expands all over the world.

This evening, I want you to talk about everything, open your mind and heart to create an unforgettable memory.

Ladies and gentlemen,
Let's enjoy the party from the bottom of our hearts.

My friends from Europe and Japan,
Thank you very much for coming together today.
